MESSAGE FROM THE FIRE CHIEF

Step one complete.... You have picked up an application to join an amazing team here at Salt Spring Island Fire Rescue.

Firefighters and Field Incident Technicians are the foundation of our Fire Department. They are role models and will become leaders within our organization and the community. We select firefighters who take this leadership responsibility seriously and who pursue excellence as part of their daily activities.

Service as a paid-on-call firefighter of our Department requires a serious commitment. Your decision to join us should not be made quickly - careful consideration, for yourself and your family, should be made of the many factors associated with becoming a member of the Fire & Rescue Service.

We ask you to conduct an honest self-evaluation before you submit your application. Familiarize yourself with the job functions and use the information to build your skill sets. Review our screening process in its entirety in order to gain a full understanding of your role in the application process.

Should you decide to apply, it is important to understand that the competition will be strong. Strong competition results in strong candidates and strong candidates produce quality firefighters.

Preparation, combined with a positive attitude and solid foundation are essential to your success.

Thank you for taking the first step and applying to become a part of something big. If you have any questions on becoming a SSIFR Firefighter please stop in the Ganges Fire Hall or connect with the department via email at admin@saltspringfire.com.

We hope you find SSIFR a good fit and hope to see you in the Class of 2025.

Jamie Holmes, Fire Chief
Salt Spring Island Fire Rescue

ENTRANCE REQUIREMENTS

Required at the time of application:

- Legally entitled to work in Canada
- Minimum 18 years of age
- Must be able to pass a physical fitness test
- Must be able to pass the required medical exam
- Class 5 BC Driver's License (Class 7 acceptable Novice 'N')
- A favorable Driver's Abstract that has 6 points or less in any one year or 9 points or less in the five year history. Abstract must not have any 214/215 suspensions or any other impaired driving conviction or any Superintendent of Motor Vehicle imposed suspension. Any pending or outstanding charges must be declared
- A favorable *Police Information Check with Vulnerable Sector Query* that will not bring the Fire Department into disrepute or hamper one's ability to obtain a First Responders Medical License, will need to be obtained prior to being accepted into the Paid-On-Call position
- Full Time Resident of Salt Spring Island.

CAREFULLY READ THE FOLLOWING

Due to the application process, the following application rules will apply:

1. The dates scheduled for the process are confirmed. If an applicant misses a scheduled portion of the process, the applicant will be rejected
2. The application, complete with the Driver's Abstract, must be completed prior to October 31st, 2024 at 4:00 p.m. If selected, all candidates must provide an acceptable *Police Information Check with Vulnerable Sector Query* and *Doctor's Authorization Form* as a condition of employment, prior to the first recruit class in January 2025.
3. Failure to follow these instructions will result in your application being rejected.

JOB TASKS AND DESCRIPTION - attach to MEDICAL Letter for your Doctor's review

“The following medical standards for the requirements outline under the *National Fire Protection Association Standard on Comprehensive Occupational Medical Program for Fire Departments 2007 Edition* (referred to as “NFPA 1582”).

The following information is provided as a general guideline and is not all-encompassing. The fire department shall evaluate the following 13 essential job tasks against the types and levels of the emergency services provided to the local community by the fire department.

1. Perform firefighting tasks (hose line operations, extensive crawling, lifting and carrying heavy objects, ventilating roofs or walls using power or hand tools, forcible entry), rescue operations, and other emergency response actions under stressful conditions while wearing personal protective ensembles and self-contained breathing apparatus (SCBA), including working in extremely hot or cold environments for prolonged time periods.
2. Wearing a SCBA which includes a demand valve-type positive-pressure face piece or HEPA filter masks, which requires the ability to tolerate increased respiratory workloads.
3. Exposure to toxic fumes, irritants, particulates, biological (infectious) and non-biological hazards, and/or heated gases, despite the use of personal protective ensembles and SCBA.
4. Wearing fire protective ensemble that is encapsulating and insulated, which will result in significant fluid loss that frequently progresses to clinical dehydration and can elevate core temperature to levels exceeding 102.2F (39°C).
5. Searching, finding, and rescue dragging or carrying victims ranging from newborns up to adults weighting over 200 lbs (90 kg) to safety despite hazardous conditions and low visibility.
6. Advancing water filled hose line up to 2 1/2 in. (65 mm) in diameter from fire apparatus to occupancy (approximately 150ft (50m)), which can involve negotiating multiple flights of stairs, ladders, and other obstacles.
7. Climbing ladders, operating from heights, walking or crawling in the dark along narrow or uneven surfaces, and operating in proximity to electrical power lines and/or other hazards.
8. Unpredictable emergency requirements for prolonged periods of extreme physical exertion without benefit of warm-up, scheduled rest periods, meals, access to medications(s), or hydration.
9. Operating fire apparatus or other vehicles in an emergency mode with emergency lights and sirens.
10. Critical, time-sensitive, complex problem solving during physical exertion in stressful, hazardous environments, including hot, dark, tightly enclosed spaces; that is further aggravated by fatigue, flashing lights, sirens, and other distractions.
11. Ability to communicate (give and comprehend verbal orders) while wearing personal protective ensembles and SCBA under conditions of high background noise, poor visibility, and drenching from hose lines and/or fixed protective systems (sprinklers).
12. Functioning as an integral component of a team, where sudden incapacitation of a member can result in risk of injury or death to civilians or other team members.”
13. Mental Health Demands - Emergency workers are subjected to many challenges and experience repeated exposure to trauma and violence. The mental health of our crew members is the highest importance to the department.
